Too Many Tails to the Bill.

Every provident stars Bushanan has writhed at the nessea ity of approving legisletter which falled to meet his approval because congress had adopted the nedicat of attaching it to so appropriations bill which he could not veto. Mensures appropriating more a love actived as a place on which to have all number of nongermane appendages and thus have be-

It is a practice which even a congress man could not cutidate but which probably will continue to be a part of Amerlean government because it would lake an act of congress Ruelt to end the practice and congress will not give up such an effective expedient

Appropriations will are the most realously guarded acts of congress. They are the 'must" legislation of every session despite the fact that thucy hong talked one to death in the closing hours of the session just ended A president connot veto one without cutting off the operating funds of his administration.

The president is also limited in his veto power to rejecting a measure in its en-Hirety and camput approve part of a bill and discuid the rest. Thus a legislator who сви attach в превыше to ви врргоpristions hill knows it is aske from the presidential veto even though the executive may be opposed President Buchania called attention to

the evils of the practice President Grant asked for a constitutional amendment permitting the executive to pass on legisintion item by item. Prosident Taft de-clared that the necessity of furnishing funds must not be used to force executive acquiescence in legislation which he cannot conscientionally approve A resolution was introduced in the house in 1928 to permit the president to velo separate Hema In the appropriations bills but this authorly was refused.

Congress ought to do something about It but won't The present arrangement is too handy for forcing pet projects past an unwilling executive

Dictator Huey Long.

Congress silpped through a joker to the final days of its session having as its purpose an investigation of the "dictatorship" of Sen. Huev Long, we read in the news from Washington, It takes no investigation to catabilah the status of the Louisiana tyrant and the survey, if one is made, will bring little to light which is not well known already. Huey Long hosses his own state with

autocially powers that a found ruler might have envied. He spreads his influence over some of the adjoining cotton states. In the senate he is a demogogue, an obstructionist, a clover opportunist and a first cless nuisance. In his own Louisiann, however, he has appealed to a majority of the voters in a way few politicians

Cotton is still king in the South and Long is a cotton counter. His science fillbuster which killed action on the \$100,000.-000 deticiency bill to finance new deal projects inflamed his colleagues with anger few of the cotton farmers of Louisiana are likely to share their feelings.

The United States would be better off, without doubt, if someone beside Huey Long occupied that particular sent in the senate but it will be a hard job to make the voters of his state share this view. It is especially difficult since Huey Long does more than control the political machinery of Louisiana-he is the political machine and as long as he can make Louislanaus like the arrangement he may well any "Let Em investigate."

The Cotton You Own.

Every time the price of coltan drops one cent a pound the inxpayers of the United States, largest owners of baled cotton in the world, lose \$25,000,000. That was the cause of all the shooting in the closing days of congress

Back in 1933 the government started the polley of loaning money to cotton farmers to enable them to hold their riop from the harvest time with its low prices to the higher market a few months later. The loan on the 1933-34 crop was 10 cents a pound and of the \$99,498,491 lonned all but an insignificant fraction was repaid. The following year the loan was 12 cents. Terms provide that if the market price fails to reach the loan price the farmer may default and the government takes the cotton and cancels the debt. Prices on the 1934-35

crop did not reach the amount of the loan and less than 2 per cent of the obliga-tions totalling \$227,582.788 were repaid

consequence the government finds Rucht holding 5 995 997 bales of corton A from rate of 12 cents demonsted by sourcern menators and compression intentioned to add an much more to the employeeses. To prevent this the adolestration bas arranged to from 15 resist a people on this year's erop with an additional subardy which will guarantee the furnet a total of 12 rents

The government boan amounts to price flaing and this has curvated American expects absorbingly Other countries, notably Strazil, have turned to collon growing and are fidding encessfully for the trade America formerly enjoyed. It is partly to win back this waning market that lower loans and thus lower prices have been set for the auditie new erop

Two Evasive Answers.

Russia made two prompt answers to America's sharp note of protest against the aubversive acts of Communists here and abroad but neither maker a real anawar to the objections woich Washington rained against the eampaign of propa-

The Russian sinbasisador in Washington said Communist activities against the American government are "Insignificant" In remperison to anti-Russian propagands In this country and the official reply from Mosroes states bluntly that the Russian government council by responsible for statements made during the session of the Communist International.

The ambassador's remarks miss the point entirely. Communists openly advocate overthrow of the American form of government and Ha replacement by the communistle dictatorable of the projeturiat Americans often criticize Russin but they ste engaged in no campaign for its overthrow, they furnish no funds to bring about its downfull and they do not send agents to Moscow to work against the government.

The official reply of the undersummisor for foreign affairs is nomewhat more invalved. He does not go into the matter of accuracy of the American protest but merely denies Moscow's responsibility and thus "rejects" the protest in a land where the government rules everything, where there is no private property and where even the lives of the people wre th property of the state it routed be believed that their aperch also is subject to government con-

It would be extremely unbealthy for mayone, either Russian or American, to arise In Mosenw and sirge a campulgo to averthrow the Soviet rule. Effective alops would be luken immediately to discourage the movement, probably by shooting the prime movers. Americans will find it difficult to believe that methods much less direct cannot be used effectively to stop unti-American artivities

The fact of the matter is that dissemination of communistic doctrine throughout the world is an integral part of the program on which Russia operates and repart of progress to the United States, doubtiess distorted and magnifying the gains of the Communists here, is probably as pleasant news to those in authority at Moseow as it was to the delegates who cheered the report at the International

The blant and brosaus way in which Moscow dismissed the protest leaves a situalian which this country cannot ignore in the face of the fact that the original Washington note spalte of 'most serious consequences" unless satisfaction is promised in this case it may mean the endof trade teletionships which have fallen far short of the expectations expressed when the Russian embassy in Washington

Blazing Away.

Attention must be ultracted by the number of trapshooting contests being held throughout the country. They perpetuate one of America's oldest institutions, for shooting matches have been a popular pasting since phoneer days, Among the forefathers they had more of practical value. They encouraged good marksmanship and that meant food for the lable and projection against chemics

Trapshooting and its more highly developed offsuring of skert shooting have grown in popularity during recent years as a result of the growing searcity of game hirds. Sportsmen who once shot quali find at clay disks.

Good marksmanship calls for steady neive, a discerning eye and quick coordination between brain and hand it is healthy competitive sport and the growth of shooting matches throughout the land is a good sign. Men and boys interested in blazing away at institution birds may be less inclined to take pot shots at other men but if the time comes when this will be demanded of them they will be better able to make their shots count

DISHES! DISHES!

Here's a quick and easy way to do them

NOBODY likes to wash dishes. But Silver Dust offers you a way to make the dish washing job quicker and easier than ever before. er. Piese, scrape dishes Three simple rules are all you need to remem thoroughly: second, use fillyer Dust and plenty of hot water in the distance. Third dry the distant with the fact drying Silver Dust sowel. That sounds easy enough, down '11'

And it is easy, You'll be estenis how quickly that disha: deing job is over, And Mak towel is free! It service perhad in a handy service with every two lease of filling Dust. Got

BIRDS TO GIVE OPENER

lander 3h Time-1 05

AS LAST 1935 GAME

COLUMBUS O Aug 30—The Red Birds Opening Day game snowed out April 16 scheduled later as part of a Sunday double-hearer with Indianapolis and rained out on that date will finally be played and curiously enough as the last game at home this year. In making this announcement today President George M Trautman of the Red Birds also stated that the closing game of Sept. 6 would be an extra-special" occasion at the Red Birds also stated that the closing game of Sept. 6 would be an extra-special" occasion at the Red Birds also standium Every member of the 125 Etrds Nester representing almost 11,000 individuals, will be admitted to this game on payment of state and federal taxes only. The Red Birds return to their own stadium Saturday to play 11 games in seven days. These will be met in a development of the first game and third twin bill against the machine the second the complete of the will be mediated with the Mud Hens Sunday starting at 1.35 and third twin bill against the machine the form of the first game of the second the first game of the fi

Weather permitting two games will be played under the lights to-night at Lincoln park. The I enert zirm ner acheduled to meet the Manufield Red Birds for the right to play in the girls react tournament. The fast Lemert hoys tenn will meet the Hamturger Ihn tenm in the second game. Last night the Hamburger Inn softball team was forced to forfeit a poxiponed Industrial League game to the Polisk Steel club.

Three 20-round fights we staged at Butte Mont., within three-day period in 1902.

Jams and jellies made with Certo have finer flavor too . . . with all the fresh, ripe fruit taste! DON'T let these wonderful grape bin

gains at your grocer's slip out of your fingers' Order fruit, sugar and Certo nim and make up a big supply of the best grape jelly, jam or conserve you've ever tasted' It won't take you more than 15 minutes,

That's why your jelly and jam have so much finer flavor ... all the rich, fresh fruit flavor of the ripe fruit remains right to your jelly! (None of that "boiled-down' taste) And because none of your juice boils away, you get so many more glasses, too. Not ue, in the recipe above, that you get 11 glasses from only 4 cups of juice! It seems almost incredible? incredible!

Although in the business 25 years Mrs. toll aid at a never saw the life of the odd ty. It call kep is about six months ald and weight

"FELT MISERABLE

MOST OF THE TIME'

Then Kellogg's At L-BRAN

Checked Her Constipation*

Read Mrs. Marsden's letter

have lean subject of constiputions for the last 11 years. I filt miserable and irritable most of the time

My husband is a manager of a chala store. He said. Why don't you try heliogg's ALL-Bran?

'Att BRAN helped me right

many I have taken it now f r the past f months and I am as regular as a clock. My health is fine and I am full of pep.—Mrs. Charles Mars len 681 Merrick St.

*Constipation due to insufficient bulk in meals

AttaBRAN provides gentle "bulk to aid regular habita. It also sup plies sitamin B and iron

The "bulk of All-BRAN is more effective than the bulk in fruits and vegetables as it does not break it wn within the body. I wo table

poorfuls doily are usually sufficent. If not corrected this way see your doctor.
